SUBJECT.

Revision of the Establishment of the Indigenous Hospital at Mysore

---

Indexed

24

Subject Proposal by the Dr Comr of Mysore to increase the establishment of medicine chaprasi of the indigenous Hospital.

Note

I do not see that the proposals have been received by the Md Govt that the matter be considered by the Govt on their receipt of the order of Govt will the Residents recommend when the Pandit or

In July 1892 Govt sanctioned as an experimental measure the establishment of an indigenous hospital in Mysore & allotted for its maintenance Rs 4 0 4 Rs, of wh ⅓ was to be met from municipal funds & ⅔ from G. of General. The Senior Hospital Asst in the Province was appointed to supervise the dispensing of medicines and general management of the institution.

The scale of establishment finally sanctioned then was as noted in the margin.

The Senior Hospital assistant reports in his letter no 31 dated 13 June 1893 addressed to the Dr Comr that the hospital is growing in popularity & furnishes the following figures in proof of that statement. It would appear from those figures that the Mysore Hospital is divided into two sections the Carnatic & the Tamil. that the total no of patients treated in the Carnatic varied from 1055 in September through 2022 in January, &

under in charge	1 @ 25 Rs	300

DEPUTY COMMISSIONER'S OFFICE,
MYSORE DISTRICT,

Dated Mysore 21st June 1893.

From

A. Ranganaumi Iyengar Esquire
Deputy Commissioner,
Mysore District.
B.A. B.L.

To

The Chief Secretary to the Dewan of Mysore,

SIR,

In submitting the accompanying copy of letter no 31 of 13th instant with its enclosures from the Senior Hospital Assistant in charge of the Indigenous Hospital at Ellpore, bringing to notice the inadequacy of the Establishment and the Contingent grant allowed for the upkeep of the institution, I have the honor to solicit sanction of Government for the proposals contained therein, as all of them are very necessary excepting perhaps the suggestion for the increase of the Assistant Pundit's pay. The increase is proposed on the ground that his services will be utilized in visiting patients at home. It is worth Consideration whether such permission

may not lead to abuse and delay in attendance of the Pandit at Hospital and as the Senior Pandit and the Hakim may also have to make such visits, an increase to this man's pay above will be an inconvenient precedent.

2. The Hospital Assistant himself has responsible work to do and deserves some consideration. He is put to much expense by living in a place like Mysore, and, as by his transfer to his present appointment, he has lost a charge allowance of 10 to 20 Rs which he might have got when placed in independent charge of a dispensary, I beg to recommend that an allowance of 20 Rs per month may be sanctioned in his case with retrospective effect from September 1892.

3. A proposition statement as per this recommendation is submitted herewith.

I have the honorable

To

The Deputy Commissioner
Ellapoie district

Sir,

I beg leave respectfully to bring your kind notice the inadequacy of the allotment sanctioned for the Indigenous Hospital in ellapoie and as well as that of the establishment to cope with the various discharge of the works connected therewith.

2. In attempting to give you an idea of work conducted in both the Carnatic and Unani dispensaries and the popularity which it has been gradually gaining, I beg to premise that the Indigenous Hospital with the denomination of Carnatic dispensary was at first opened on the 1st September last and the Unani dispensary in the month of November following.

3. The number of persons treated in the Carnatic dispensary from its commencement upto 31st May 1893 was — 13721 and that in the Unani dispensary 9001 or a total of 22722 persons. Having regard to the infancy of these

Institutions, I need hardly submit that the above number the full details of which I append below is sufficiently encouraging

Month	Carnatic Dispensary		Mirani Dispensary		Total	
	Total treated	average daily no of patients	Total treated	average daily no treated	Total treated	average daily no of patients
September/92	1055	46·2			1055	46·2
October	1476	77·9			1476	77·9
November	1389	84·76	259	51·85	1648	136 61
December	2164	111·32	915.	123·22	3079	234
January 1893.	2022	127·53	1476.	165·51	3498	293
February	1879	113·42	1579	164·64	3458	278
March	1530.	94	1801.	148	3331.	24
April	1452	112	1786	139·03	3238	251
May	1555	139·09	2020	182·38	3575	321

4. The scale of Establishment as originally sanctioned including the clerical staff consisted of 7 hands at a cost of Rs 77 per mensem. This was modified in Government Proceedings no 6271-3 / 23.79-92 dated 4th November 1892 and the same increased by the entertainment of 2 Coolies on Rs 4 each – an arrangement effected by the abolition of a Compounder's appointment and by the reduction of the pay of another compounder from

6 to Rs 5 thus entailing no extra cost to Government.

5. To the Carnatic Dispensary are attached one Pundit on Rs 25 and an Assistant Pundit on Rs 12 per mensem. In the Unani Dispensary where the number of patients treated are greater than those in the Carnatic the salary of the Hakim who works there single handed in a very appreciable manner is on receipt of a small pay on Rs 15 with the assistance of a compounder on Rs 5 which is less attractive. In view to serve as an incentive to the men to work more conscientiously to the better satisfaction of all I would respectfully recommend that the pay of the Unani Hakim be raised from 15 to 25 Rupees and that of the Compounder from 5 to 7 Rs. I am prompted to submit this recommendation for the Hakim and Compounder have and are continuing to do their work more satisfactorily than what I expected of them.

6. There are some poor patients who can ill afford to attend the Hospital regularly owing to the serious nature

of their complaints and in order to make the Hospital more popular and bringing it within the reach of all, I would beg leave to suggest that the assistant Pandit attached to the Carnatic Dispensary be ordered to visit such patients in their houses and as this involves additional work, an increase of Rs 3 may be given him.

7. Experience has proved that the services of a female servant is absolutely necessary. It has not unfrequently happened that certain poor women from the nature of their complaints, have to be examined and such examination could not with any amount of decency be conducted by males; hitherto in such cases, I have had with difficulty to seek the services of those female patients who attended the Hospital, a practice which unavoidable as it was for many reasons, I consider it very objectionable. In order to obviate this difficulty I beg to solicit the entertainment of a maid servant on Rs 6 per mensem and sanction for an

2. 12

additional Cooly as the present number of them viz 2 persons has proved to be utterly inadequate to keep pace with the growing wants of the two dispensaries and that their pay be also increased from 4 to 5 Rs because the men now serving are unwilling to risk on Rs 4 when better remunerative labor is available for them elsewhere.

8. The number of patients attending both the Carnatic and Unani dispensaries is daily on the increase. The present allotment of Rs 41-10-8 per mensem or Rs 500 per annum for both the Dispensaries is altogether insufficient to meet the requirements of medicines &c the fact of which is fully known to Mr Ambalay Annia Pandit who is and has been taking an active interest in both the above institutions. Under these circumstances I respectfully beg that the Government may be pleased to sanction a monthly allotment of Rs 60 i.e 30 Rs for the Carnatic and a similar sum for the Unani Dispensary.

9. I submit a proposition statement

Containing my several proposals which involving as it does an additional cost of Rs 536 per mensem ? annum would, if the Government be pleased to sanction the same, not only keep the Dispensaries on a sound and satisfactory basis, but would eventually prove more beneficial to the population of this city.

10. I beg also to submit a statement shewing the expenditure incurred in purchasing medicines for both the Dispensaries during the past 9 months.

I have &c

To

The Deputy Commissioner
Mysore district

Dr Mint 12.9.93

Sir,

In returning the Chief Secretary's letter no 2454 / J 221 dated 1st august 1893, I have the honor to state that, on the motion of the City Municipal Board, the Establishment of an Indigenous Hospital at Mysore for the treatment of Patients according to Native Method was sanctioned in Government order no 15-72 / Ft-79-92 dated 28th July 1892, as an experimental measure, at a cost not exceeding Rs 1404/- per annum, one third cost being met from the Municipal, and two thirds from district Funds.

2. The Karnatic, in other words, Hindu, portion of the Hospital was opened on the 1st September 1892, under the charge of a Brahmin Pandit assisted by an assistant Pandit; and the Ununee, or Mahomedan portion, was opened in November 1892 under a Mahomedan

ahammedan Hakeem.

Mr. 1st class Hospital assistant, Rangaswamy Pillay is attached to this Hospital to watch the preparation of the medicines and note the results. The Government wished that he should not ordinarily interfere with the dispensing of medicines, but he can have power to stop giving out any medicine which he considers to be dangerous to human life.

4. The working hours in this Hospital are from 7 to 10½ a.m. and from 4 to 6 P.M. daily, and the daily average attendance of patients steadily increased and it was 147 and 200 respectively during August 1893. A statement showing the number of patients treated from the beginning is submitted.

5. It will be clearly seen from the statement that people go to the Hospital for treatment freely and largely, so much so that the native population seem to have a listening to this institution which has, therefore, become most popular in this large and important City.

6. Provision has been made to prepare costly medicines in both the branches, and it is not only given to the patients who attend the Hospital to be treated free of charge, but it is sold to other applicants at fixed prices, a list of which is hung in the institution. Nearly 200 Rs. worth of medicines have thus been sold to the public.

7. Owing to hard work in this Hospital, recommendation was made to augment the pay of the Hakeem to

assimilate that of the Peraliman Pundit, and to appoint
a female cooly, and an additional male cooly to fetch
herbs, leaves and such like ingredients required for
the preparation of medicines, instead of buying them
in the local markets. A charge allowance for the
Hospital Assistant has also been recommended
to make up the allowance which he would certainly
have received had he been in charge of any dispen-
sary elsewhere, and the matter is under the consider-
-ation of the Government.

8. It is a matter for congratulation that there has
been no friction or misunderstanding between the
Hospital Assistant and native Pundits or Hakeems,
nor was there any undue interference on the part of
the former in the dispensation of medicine by the latter

9. No provision has been made in this Hospital
for indoor patients, but such patients are treated
in the Government General, or in Her Highness the
Maha Rance's Hospitals.

I have the honor to be

Sir,

your most obedient Servant

A Coopooswamy

Vice President

Camp D No 4-5-93 / L.D. 79-93 7/10/93

Government observe that the indegenous Hospital was established in September 1892 to test the efficacy of native methods of treatment. Senior Hospital Assistant Rungasawmy Pillai, who combines a wide experience of both native and English methods of treatment was appointed to superintend the institution. To the Carnatic Dispensary which was then started, a Unani Dispensary was added in November 1892. The Hospital Assist^t reports favorably on the operations of both the Dispensaries and his opinion, Govt are glad to observe is borne out by the statistics furnished. Whether judged by the percentage of cures effected or by the attendance, which is more than twice as large as in the neighbouring Municipal Dispensary at Evangeri or by the cost of treatment, which is less than half the cost incurred per head in the latter Dispensary, the institution has

64

has more than fulfilled the expectation of Government both in regard to popularity & cheapness of treatment. Under these circumstances, Government are pleased to sanction the proposed rate of pay for the establishment proposed by the Board as noted in the margin with the following modifications from 1st Feby 1893.

1 excepting in the case of the Hospital Assistant who may be allowed charge allowance at the rate he was drawing at Jeypore before he joined the Municipal Dispensary Hospital up to 30th June, & at 15 Rs per mensem from that date.

	Present per mensem	Future per mensem
Hakim	15	25
Compounder	5	7
Coolie —	4	5
Coolie —	4	5
Coolie —	4	5
Head Servt —		5
Allowance to Dispensary Hakim	4 —	15
Cart —		

2. When the Sanitary Assistant or Hakeem has to visit private houses, he may make a small charge for the same, the rate being determined by the Municipality.

Board ~~No increase of Salary can be allowed on this account~~

3 Considering the heavy and responsible work devolving upon the Hospital Assistant, his monthly allowance will be fixed at Rs 20 per mensem as originally proposed by the Dy Coms and the same

3 — The total cost of medicines should not exceed Rs 720 per year.

discharged to him with effect from 1st September 1892 — for reasons given in Para 2 of the first letter read above.

(4) The scale of charges of the Indigenous Hospital as above sanctioned will thus amount to Rs ~~229~~ 2232 against Rs 1544 the existing scale as detailed below:—

No. D. 4-5—L. F. 79-92, DATED MYSORE, 7TH OCTOBER 1893.

ORDER THEREON.—Government observe that the Indigenous Hospital was established in September 1892 to test the efficacy of native methods of medical treatment. Senior Hospital Assistant Rangaswami Pille, who combines a wide experience of both Native and English methods of treatment, was appointed to supervise the institution. To the *Carnatic Dispensary*, which was then started, a *Unani Dispensary* was added in November 1892. The Hospital Assistant reports favourably on the operations of both the Dispensaries and his opinion, Government are glad to observe, is borne out by the statistics furnished. Whether judged by the percentage of cures effected, or by the attendance, which is more than twice as large as in the neighbouring Municipal Dispensary at Irangeri or by the cost of treatment, which is less than half the cost incurred per head in the latter Dispensary, the institution has more than fulfilled the expectations of Government both in regard to popularity and cheapness of treatment. Under these circumstances, Government are pleased to sanction the increases proposed by the Board as noted in the margin* with effect from 1st July 1893, excepting in the case of the Hospital Assistant who may be allowed charge allowance at the rate he was drawing at Tiptur before he joined the Indigenous Hospital, from the date of his joining up to 30th June 1893 and at Rs. 15 from 1st July 1893.

	Present, per mensem.	Future, per mensem.
